

FuelQuest Zytax Archiving Solution

The Zytax Archiving Solution provides Zytax clients with a method of offloading historical data from the production system.

KEY BENEFITS

- Eliminates dependency on IT resources availability
- Frees up hard drive space
- Improves security, controls and compliance
- Facilitates the auditing process
- Controls historical data retention

For a tax analyst, quickly responding to an auditor's request is critical. By enabling the analyst to recover data independently, the Zytax Archiving Solution enhances control and improves efficiency.

This solution eliminates concerns regarding large amounts of data that must be accessed frequently. Archiving data not only clears system space, it also enhances performance. The Zytax Archiving Solution has the flexibility to selectively archive table data by specific criteria with the capability to view, report, purge and restore the archived data with dynamic regeneration of table structures.

ABOUT FUELQUEST

FuelQuest, Inc. provides on-demand, web-based supply chain management and tax automation software and services for fuel suppliers, distributors and buyers in global downstream energy. Our Fuel Management System (FMS) automates all aspects of the fuel management process from procurement, inventory management, demand forecasting, strategic sourcing and financial reconciliation to margin analysis and environmental compliance monitoring. The FMS solution powers the largest fuel management network in North America. Zytax supplies strategic software automation solutions for indirect tax determination and excise motor fuels compliance for the energy industry. Learn more at www.fuelquest.com.
