

FuelQuest Zytax Archiving

Offloads historical tax data from production Zytax systems to facilitate rapid response to auditor requests

KEY BENEFITS

- Eliminates dependency on IT resources availability
- Frees up hard drive space
- Improves security, controls and compliance
- Facilitates the auditing process
- Controls historical data retention

PRODUCT OVERVIEW

For a tax analyst, quickly responding to an auditor's request is critical. By enabling the analyst to recover data independently, Zytax Archiving enhances control and improves efficiency.

Zytax Archiving eliminates concerns regarding large amounts of data that must be accessed frequently. Archiving data not only clears system space, it also enhances performance. The product has the flexibility to selectively archive table data by specific criteria with the capability to view, report, purge and restore the archived data with dynamic regeneration of table structures.

KEY FEATURES

- **Encryption** – Encrypts and compresses archived files
- **Restoration** – Restores data using data restoration utility
- **Reporting** – Creates reports of archived data via query wizard
- **Archiving** – User controlled archiving
- **Security** – Three levels of security:
 - View and query
 - View, query and archive
 - View, query, archive and purge

ABOUT FUELQUEST

FuelQuest provides on-demand fuel management, tax automation, and compliance solutions for suppliers, distributors, buyers, and traders of petroleum products and other energy commodities. FuelQuest's solutions deliver operational and financial value to over 650 customers. These customers include leading global oil companies, international retailers, shippers and government entities. FuelQuest's fuel management solutions help customers manage the complexity, regulation and market volatility for more than 19 billion gallons of gasoline and diesel fuel annually. Its Zytax solutions ensure compliance and accuracy for tens of billions of dollars of energy-related excise taxes per year. Learn more at www.fuelquest.com.
