

# FuelQuest Zytax Compliance

## KEY BENEFITS

- Automates end-to-end reporting processes
- Improves return accuracy and reliability
- Keeps current with changing rates, rules and filing standards
- Streamlines data collection from multiple back-end systems
- Facilitates amendment and audit processes with robust reporting

Signature-ready tax return generation from fuel transaction data across a broad range of US and international taxing jurisdictions

## PRODUCT OVERVIEW

Zytax Compliance is supported with timely tax rule, rate and form updates to ensure you have access to the latest regulatory changes. The product imports transactional data from one or more back-end systems as well as allows for manual entry.

Once transactions and corresponding schedules are validated, Zytax Compliance generates the appropriate signature-ready returns and provides multiple modes of filing including electronic (EDI, XMI, Excel) or paper.

All transactions are retained and stored in a centralized tax data repository. Filers can access all transactions, schedules, and returns anytime via user friendly query and reporting tools. Running on a common technology platform shared by all Zytax products, the product also provides robust error checking and troubleshooting tools to facilitate the entire tax filing process as well as audits and amendments.

## KEY FEATURES

- **Automated Updates** – Regular updates of rules, rates and forms, for all major U.S. jurisdictions including ExSTARS
- **Transaction Manager** – Imports transactions from back-office systems and allows manual entry
- **Return Generator** – Creates signature-ready returns for electronic or paper filing
- **E-File** – Supports EDI, XML, CSV, Excel and proprietary filing formats
- **Dynamic Workflows** – Automates tax filing processes including review, approval and event notification
- **Software as a Service (SaaS) Deployment** – Access software hosted and managed within our highly-available, secure data center with full disaster recovery and 24x7x365 support

## ABOUT FUELQUEST

FuelQuest provides on-demand fuel management, tax automation, and compliance solutions for suppliers, distributors, buyers, and traders of petroleum products and other energy commodities. FuelQuest's solutions deliver operational and financial value to over 650 customers. These customers include leading global oil companies, international retailers, shippers and government entities. FuelQuest's fuel management solutions help customers manage the complexity, regulation and market volatility for more than 19 billion gallons of gasoline and diesel fuel annually. Its Zytax solutions ensure compliance and accuracy for tens of billions of dollars of energy-related excise taxes per year. Learn more at [www.fuelquest.com](http://www.fuelquest.com).
