

FuelQuest Zytax Government

Provides governmental agencies a powerful tool for gathering data for reporting and auditing of the notoriously complex and time-consuming motor fuels excise tax

KEY BENEFITS

- Increases revenue
- Improves reporting efficiency
- Highlights possible tax evasion
- Eliminates manual data entry
- Removes paper storage needs
- Increases audit effectiveness
- Accommodates state-specific processing
- Provides powerful ad-hoc reporting tools

PRODUCT OVERVIEW

Zytax Government accelerates the entire motor fuels excise tax auditing process and eliminates labor-intensive procedures by allowing government agencies to completely automate excise tax auditing and reporting.

KEY FEATURES

- State-of-the-art web architecture based on .NET
- Secure, role-based access for all functionality with complete audit trail
- FTA-compliant schedules, returns and EDI compatibility
- Automated EDI import, schedule validation, and calculation of motor fuel excise taxes and information reporting
- Secure credit card, ACH and EFT payment processing
- Complete tracking/cross-match module designed to find potential transaction mismatches including:
 - Import/export reconciliation
 - Diversion reconciliation
 - ExSTARS/ExTOLE reconciliation
- Centralized repository for all schedules and return data
- Analysis and advanced ad-hoc query reporting tools
- Automated export to accounting back office systems

ABOUT FUELQUEST

FuelQuest provides on-demand fuel management, tax automation, and compliance solutions for suppliers, distributors, buyers, and traders of petroleum products and other energy commodities. FuelQuest's solutions deliver operational and financial value to over 650 customers. These customers include leading global oil companies, international retailers, shippers and government entities. FuelQuest's fuel management solutions help customers manage the complexity, regulation and market volatility for more than 19 billion gallons of gasoline and diesel fuel annually. Its Zytax solutions ensure compliance and accuracy for tens of billions of dollars of energy-related excise taxes per year. Learn more at www.fuelquest.com.
